HUERTA HASN'T LEFT AND DOES NOT INTEND TO

Dictator Seen Around His Usual Haunts Yesterday—Vacancies in Cabinet Are to be Filled Soon.

MEXICO CITY, May 28.—Surprise and amusement has been caused in government circles by the wide circulation given to the report that Huerta had fled from the capital to embark for Europe at Puerto Mexico. As has been repeatedly stated in these dispatches Huerta has no intention of flight. Wednesday he was to be seen about his usual haunts conferring with his intimates.

It is understood that the cabinet vacancies will be filled tonight or Thursday morning. There are no indications of any further changes.

The president and family Wednesday celebrated the name day of his daughter, Luois. Members of the cabinet and other government officials were present. All seemed to be extremely optimistic regarding the internal and international situation.

AGAINST CARRANZA.
CLIFTON HOTEL, NIAGARA FALLS, Ont., May 28.—The Mexican delegates let it be known late Wednesday night that they would prefer an unsatisfactory settlement with the United States rather than see Carranza recognized by Washington or constitutional delegates admitted to the peace conference.

Upon their return from Toronto the American delegates received a long code message from the state department which it will take three hours to translate. The message is understood to deal with the report of the landing of 25,000,000 rounds of ammunition at Puerto Mexico by German ships Ypiranga and Bavaria.

PREPARE PLANS.
WASHINGTON, May 28.—The state and war departments Wednesday considered plans for the protection of the 400 Americans and other foreigners in Mexico City in the event of Huerta's flight.

Carranza refuses positively to accede to the administration's demand that he agree to the establishment of a provisional government after the constitutionalists capture Mexico City and pending a general election. This was confirmed Wednesday by one of Carranza's representatives in Washington.

John Lind, special representative of the state department, and Charles A. Douglas, general counsel for the constitutionalists, were in conference with Secretary Bryan Wednesday. The state department is bringing heavy pressure to bear to induce Carranza to yield and participate in the mediation congress.

The assistance which the administration has given him in the past and the necessity he will have for future American aid are the main arguments being used on him.

It is believed now that Carranza will name delegates to the conference but with such strings tied to his participation in the proceedings that he will be yielding in very small degree.

Tests in laboratories show that Vacuum Ice is more dense than any other ice, there are no air spaces in it. The tests also show that no other form of ice has better cooling qualities per pound. Other tests show that any bacteria that may be in the water is eliminated by the Vacuum process of freezing. Vacuum Ice is safe to put into drinks or on to food.—Adv.

REBEL LEADERS WILL STUDY OUR SYSTEM

Public Schools Opened at Monterey and Breweries Forced to Meet the Bills—Villa Reports on Execution.

NEW YORK, May 28.—Francisco Urquidí, acting consul general at New York for the Mexican constitutionalists, made public Wednesday night some interesting information from Monterey, Paredon and Tampico.

Official dispatches from Gov. Villareal at Monterey state that between 30 and 40 public schools having been closed there for 15 months. To maintain and operate these schools Villareal has seized the breweries and is utilizing the profits. The brewery owners demurred at an order to pay a war tax to the rebel forces. Immediately the properties were seized.

That is not the only innovation of government by the rebel civil authorities. Women of the undesirable class have been banished from the state. The majority followed the fleeing federal has seized the breweries and is all other business houses had been opened.

Several priests were banished. Gen. Villa's official report of the execution of federal prisoners at Paredon has just arrived. According to Villa only one general and some of the others were executed. He states that they were first found guilty of provoking the lower classes to rise against the United States as well as the constitutionalist forces. Gen. Carranza has appointed commissioners to visit the United States immediately. These emissaries are to study our school system; factory system; banking methods; seek new business ideas from our best merchants, jobbers and wholesalers and investigating the operations of the largest municipal governments.

The first of these commissioners will soon arrive. They will probably visit all the larger cities of the country.

From Tampico a brother of Senor Urquidí wired that business conditions were just the same as before the war started.

In the official report of Villa, concerning the capture of Paredon, is contained the statement that 6,000,000 rounds of cartridges were taken. Is much larger than the figures received by constitutionalist headquarters from other sources. This news caused much elation.

"NATIONAL HERO SERIES" NO. 3

Kosciusko—"The Greatest of the Poles"

NEVER in the history of mankind has there lived a more ardent lover of Personal and National Liberty. He fought with intrepid valor under our own Washington for American Liberty. He devoted his life to regain the ancient freedom of his beloved Poland. Kosciusko hated any legislative attempt which invaded the Natural Rights of Man. If he were alive to-day, every son of Poland knows that he would revolt at any LAW which declared: "Thou shalt NOT eat this—thou shalt NOT drink that." Kosciusko knew that the light wines of his native land and the barley brews of Germany were good for mankind when used in moderation. He drank them himself to the end of his honored days, and who will DARE say that they in any way injured this mighty personality. For 57 years Anheuser-Busch have honestly brewed honest beers. Their great brand—BUDWEISER—is sold throughout the world and has helped the cause of true Temperance. Seven thousand, five hundred men are daily required to keep pace with the natural demand of Americans for **BUDWEISER**. Its sales exceed any other beer by millions of bottles.

Bottled only at the home plant.
